## Skills

Full Stack

JavaScript

Python

Node.js

MySQL

Git

React

RESTful APIs

## Profile

As an experienced Full Stack Developer, I specialize in creating seamless web and mobile applications. Leveraging my expertise in Flutter and Node.js, I develop robust, user-friendly apps that deliver exceptional user experiences across all platforms. As a primary application developer, my skills extend beyond development to include proficiency in React.js, ensuring your web applications are as dynamic and interactive as your mobile ones. Additionally, my adeptness in server management across AWS, Digital Ocean, and other platforms guarantees smooth and efficient operation of your applications. With my comprehensive skill set, I am equipped to bring your digital visions to life.

## Employment History

### Full Stack Developer, Coderkube Technologies

JANUARY 2022 – JANUARY 2024

During my time at Coderkube Technologies as a Full Stack Developer, I was responsible for developing and maintaining web applications using a variety of technologies such as JavaScript, React, Python, Git, MongoDB, MySQL, Node.js, Flutter, and Android. I collaborated with cross-functional teams to analyze user needs, design scalable solutions, and ensure the responsiveness of the applications.

- Developed and implemented RESTful APIs to enable seamless communication between the front-end and back-end systems.
- Designed and optimized database structures to ensure efficient data storage and retrieval.
- Utilized version control systems like Git for collaborative development and code management.
- Contributed to the development of mobile applications using Flutter and Android, ensuring a seamless user experience across different platforms.
- Utilized my expertise in React to create dynamic and interactive user interfaces for web applications.

## Education

### BCA, Saurashtra University

JULY 2019 – MAY 2022

### MCA, Saurashtra University

JULY 2022 – APRIL 2024
